ALL YOUR NEEDS, ONE SOLUTION

Figurator EXT is a 360° ERP system, which **covers all your company's needs** - from 'the man on the ground', who has to register orders, travel expense reports, and time to the manager who needs an overview of key numbers, turnover, and employees.

Figurator EXT connects all your company processes and offers a solid foundation for your business.

CUSTOMIZE AND INTEGRATE

Customize Figurator EXT **fast and simple** to match changes in workflow or organisational alterations with short notice. Figurator EXTs **layered structure** is based on **the latest object-oriented technology on the market**, which gives you a simple and clear overview of your preferred alterations.

360°

*Your success is
our success*

FIGURATOR EXT

Userfriendly

Mobil service control

Scalable & customizable

Cost efficient

Cloud, On-Premise or a combination

Robust & intelligent structure

PARTNER-DRIVEN AND BASED ON THE LATEST TECHNOLOGY

Figurator EXT offers great opportunities for individual **customization for both** partners and customers.

While Figurator EXT is built upon the **latest technology on the market**, it is also embedded in familiar development methods and with a **well tested structure**.

EXPANSION AND INTEGRATION

Want your solution exposed online? Want your employees to access your system via smartphone or tablet? All of this is possible with Figurator EXT.

With Figurator EXT your system becomes **available on multiple platforms** and can be adjusted without **major costs**.
